Sunday School Contest.

In the big Sunday school contest between Catlettsburg and Pikeville staged between Mayor Joel E. Childers and Mayor W. C. Harper, Catlettsburg won by 240. The number attending the various Sunday schools in Catlettsburg Sunday morning was 1781. At M. E. Church South, there were 497. There were 58 in the woman's class, at Christian church there were 170 and a large number at Presbyterian, M. E. and Baptist Sunday schools in Catlettsburg proper and many at Sandy City and Hampton City.

Pikeville is one of the most hustling and enterprising cities in Kentucky and considering the difference in the sizes of the two cities, Catlettsburg being considerably larger, our victory is not one to boast of by any means, but we are glad we won. The returns indicate that the Southern Methodist Sunday schools in Ashland led by a considerable margin in the attendance piled up on the annual Go-to-Sunday-School Day. The three Sunday schools of the M. E. Church South in Ashland totaled 1411 in attendance. In this total the following are included: First church, 696; Centenary, 514; Oakview, 201.

Some FACTS About

Ford

THE UNIVERSAL CAR

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921, and how many have been sold to retail customers, in the United States.

	Produced	Retail Customers Delivered to
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221
Total Production	127,074	Total Retail Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.
